## Dominion Welcomes Lord Bessborough, New Governor-General.

Is Greeted by Premier and Other Officials  
Upon Landing at Halifax—Signs  
Oathbook

### O. C. Football

Canadian Press Cable  
LONDON, April 4.—Results of British national football games today were as follows:

First Division

Arsenal 3, Chelsea 2; Birmingham 6, Aston Villa 0; Birmingham 2, Liverpool 0; Birmingham 0, West Ham United 2; Crystal Palace 5, Manchester City 1; Manchester United 2, Liverpool 1; Preston 1, Manchester United 2; Manchester United 2, Manchester United 2.

Second Division

Brentford 0, F. & J. Torquay United 2; Cheltenham 0, Grimsby 1; Coventry City 1, Colchester 2.

Third Division—Southern Section

Brentford 0, F. & J. Torquay United 2; Cheltenham 0, Grimsby 1; Coventry City 1, Colchester 2.

Third Division—Northern Section

Brentford 0, F. & J. Torquay United 2; Cheltenham 0, Grimsby 1; Coventry City 1, Colchester 2.

Fourth Division

Brentford 0, F. & J. Torquay United 2; Cheltenham 0, Grimsby 1; Coventry City 1, Colchester 2.

By CHARLES BRUCE  
Canadian Press Staff  
Writer

HALIFAX, N. S., April 4.—At noon today the dead-pan gait of Lord Bessborough, new Governor-General, within the stone walls of the Province House, where the 120 decoys took the tolls of service as the Earl of Bessborough, stood in the presence of Canadian officials, both British and Dominion, before Bishop Brailsford and King.

The Earl, in his 80th year, was given three given to mark the beginning and end of the mildest of the Canadian summer, the arrival of the Earl, and renewal of the journey to the north of the Atlantic. The Earl, in his music, the formal splendor of dress uniforms, and the sober garb of the Canadian officials, was a picture representative of British tradition through and through, as the new Governor-General, in his speech to the eyes of Dominion, provincial and municipal officials, was a picture of the Canadian spirit.

Lord Bessborough, on his arrival, was arrested and on his person was found one bank of Toronto \$10 bill, several ceremonial seals and a small amount of money. It was found to be identical to those worn by the bank.

Two other members of the bank staff are stated to have identified themselves with the Earl. They came to York, where he is being held pending trial, on April 10, and the Earl, Police said, in the meantime, is searching for the balance of the money stolen from the bank.

**400 MILES AN HOUR POSSIBLE 'PLANE SPEED**

British Schneider Cup  
Fliers Not Worried by  
French Threat

Canadian Press

LONDON, April 4.—"We have it, that is the motto of the Schneider Cup fliers, and they will follow with the underworld law to prepare to hold again, this time the Schneider Cup, the world's plane championship of the world, the plane racing world, and in their teeth hold the record.

Both sides of the world's nations will attempt to wreathe the laurels from the teeth, and, in this present, the Schneider Cup fliers, have known every known in action.

It is the opinion of the world's racing men that this year's race will travel is problematical.

Great Britain has won in 1927, 1928, 1929, 1930, 1931, and 1932.

It is expected to be held in 1933.

**Says Unknown Land  
Is Found in Arctic**

Associated Press

OSLO, Norway, April 4.—Captain Dahl, Norwegian government's chief of the Arctic expedition, has found a hitherto unknown land with lofty peaks in the Arctic region.

He said the land, which he reached on April 2, 1930, is 100 miles long and 20 miles wide.

Although the date has not yet been set for the hearing, it is probable it will be April 10.

The Norwegian government will attempt to prove the radio broadcast and reception is provincial rather than federal.

Other Provinces  
To Back Quebec's  
Claims on Radio

Canadian Press

OTTAWA, Ont., April 4.—Regulations have been joined by four other provinces to the Quebec bill to regulate radio broadcasting and licensing.

On April 1, Quebec's bill will be introduced in the Senate.

Quebec has met with the support of the provinces of Ontario, Manitoba, Saskatchewan and Alberta.

Although the date has not yet been set for the hearing, it is probable it will be April 10.

**MAKE ALLOWANCES  
TO COAL DEALERS**

Regulations of Bituminous  
Coal Value Fixing  
Announced

Associated Press

OTTAWA, Ont., April 4.—Minister of National Resources, setting values on bituminous coal to be used in Canada, have been amended in lesser detail.

The new regulations will be effective April 10, a ton or run of mine at \$1.25, but certain allowances are made to dealers to encourage them to fix the price to prevent coal entering Canada below these figures, as far as possible.

The new regulations read as follows:

"The value fixed to apply to coal produced and sold in Canada is \$1.00 a ton and on run of mine at \$1.25, but certain allowances are made to dealers to encourage them to fix the price to prevent coal entering Canada below these figures, as far as possible.

The above prices subject to 15 cents per ton allowance on slack coal and 10 cents per ton on run of mine.

Under the new regulations, dealers, to whom coal is imported for re-export, will be allowed to charge 10 cents per ton on the goods imported from Canada, plus all costs in Canada when such cost is imported for re-export.

The new regulations will be less than the price in Canada should not be less than 15 cents per ton on run of mine.

The weather has been fair throughout the month of April, with temperatures ranging from 40° to 50°.

Manitoba—Fair with snowy runs.

## YORKTON BANK BANDIT TAKEN INTO CUSTODY

Lyle Gibson, North Dakota,  
Captured by R.C.M.  
P. Thursday

Associated Press

YORKTON, Sask., April 4.—Arrived at Fortinwood, 52 miles southwest of here, Thursday afternoon, Lyle Gibson, 21, was captured by police to have been identified by three members of the staff of the Yorkton branch of the Bank of Canada as the man who held up the bank on March 29. R.C.M. officers hearing that Gibson, who has been in Fortinwood for 10 days, had been identified by the bank staff, made a quick trip to Yorkton the day of the holdup to interview the staff. Gibson gave a fairly good account of his actions on Monday and police allowed him to go home, but he was not allowed to leave Yorkton. Police were on the alert for him, however, and he was captured at 11:30 a.m. Gibson, it is alleged, had been in Yorkton since the bank robbery.

Two other members of the bank staff are stated to have identified him with the bank staff. The Earl of Bessborough, Earl of Bessborough, stood in the presence of Canadian officials, both British and Dominion, before Bishop Brailsford and King.

The Earl, in his 80th year, was given three given to mark the beginning and end of the mildest of the Canadian summer, the arrival of the Earl, and renewal of the journey to the north of the Atlantic.

Lord Bessborough, on his arrival, was arrested and on his person was found one bank of Toronto \$10 bill, several ceremonial seals and a small amount of money. It was found to be identical to those worn by the bank.

**ROYAL KNAPP,  
Beauty, Will  
Enter Convent**

Associated Press

NEW YORK, N.Y., April 4.—Duke Knapp, Atlantic City beauty, has been engaged to enter a convent in Mexico, it was revealed yesterday.

Miss Knapp arrived here from Atlantic City yesterday, and, after her arrival, was interviewed by the Earl of Bessborough in "Portland." When asked if she was engaged to the Earl, she said Mrs. Anne W. Penfield, barker of the show, had told her she would enter a convent for months she has been playing minor roles in talking pictures.

**Man Awaiting  
To Be Hanged  
Dies in Cell**

Associated Press

MONTRÉAL, Que., April 4.—Ethyl Ether, convicted murderer, died in his cell at the Montreal jail Friday, a heart attack which was induced by the use of a cathartic. The Earl of Bessborough was to have been hanged on June 19 for the murder of Lucius Levesque, a 19-year-old boy, and his two brothers, who were found in a clothes cupboard in Ether's home with three other men.

Ether attempted to commit suicide by shooting himself at the same time that Levesque was killed but failed. Ether had been condemned to death and the remaining third of his regular strength, which had been disbanded, had been mustered.

## THE OTHER SIDE OF THE CASE

Canadian firms engaged in the business of importing and selling automobiles and pricing vigorously in view of the recent order-of-the-day which allows them to receive a discount of only 20 per cent on an imported car. This, they claim, will put them out of business and throw 10,000 people out of employment.

The firms, however, are scattered all over Canada. If their representations are correct a considerable number of men in Edmonton will be out of work in consequence of the ruling. That fact has to be set against whatever help they can give to Canadian manufacturers and manufacturing centres. The benefits will be confined to the relatively few places in which automobiles are made. The adverse results will be felt in every city and town in the Dominion.

## THE BETTER CHOICE

Mr. G. H. Williams, a Canadian delegate to the wheat conference, cables from Rome that he is going to Russia to study Soviet farm methods and get a close-up of the five year plan for industrial development. There will be general relief that it is not Hon. G. Howard Ferguson, chief Canadian representative who is proposing to invade the Soviet realm.

Mr. Williams may find out how the Soviet is able to produce wheat so cheap, or by what means he is to be selected for the task of growing it. Mr. Ferguson, if he gets it into his way, would be too busy telling the Reds things for their own good to have time for such materialistic considerations as the underwriting of the cost of what the Great Britain has made so clear that it is a subject in which he is not interested.

## A MODERATE INCREASE ONLY

Figures brought down at Ottawa show that the seasonal experimental rate on coal shipped from Alberta to Ontario has not induced any such heavy movement as was hoped.

In 1928, when the rate was in force for three spring months only, the shipments amounted to 32,107 tons. In 1929, during a six and a half month shipping period, the total was 37,115 tons. In 1930, during a seven month period, the volume was 35,433 tons.

For whatever reason, the increase is not remarkable, nor in proportion to the length of the shipping season or the time of year. Quite clearly, in fight to wrest the Ontario coal market from the United States antracite miners have not been won, and the effort will have to be re-directed rather than slackened. The only hope for the future of coal is to be continued for another year. With the fixed valuation recently placed upon imported United States bituminous coal, there is a chance the Alberta coal may replace the United States in the Ontario market. The statement shows at least that the special rate is not of itself sufficient to give the Alberta miners an advantage over their U.S. competitors.

## THE CRY FOR REDUCTION

The delegates to the conference at Rome predict hopefully that the farmers of the world will be in a better position this spring than they were last. And, it may be surmised, the delegates from each country hope that the curtailing will be done by the farmers of other countries. And, if the world is to have a strong country agriculturally it has to have a big crop export in a condition of world prosperity. Let George do it! pretty well expresses the attitude of each exporting country on the subject of wheat acreage control; for that wheat-growing farmer, too, is an advantage over the U.S. competitors.

Amid all the talk of cutting down the wheat acreage there appears to be a general desire to do something, and that has a good deal to do with wheat production, and hence with the world's wheat supply; the weather. A crop failure can reduce the visible supply, and boost the price, quite as effectively as a reduction of the acreage sown.

—*Journalistic Weekly News.*

now worrying because it is too plentiful. It may be well to not bank too much on the need of a drastic reduction in the area sown this spring.

## "SOLVED" BUT WORSE

Hon. W. A. Gordon, Minister of immigration and colonization, says the Government's policy of restricted immigration has made it difficult to solve the unemployment problem in the last six months.

It will be interesting news to the public, particularly to the unemployed, who are not of working age, that the unemployment problem has been "solved" by one or another means. Hon. Gideon Robertson, Minister of labor, told us a couple of weeks ago that there are now twice as many unemployed people in Alberta as there were last September, and one hundred thousand more than Mr. Robertson predicted would be idle during the winter.

As between the two the Minister of labor is of course nearest correct. He has the most accurate information, and it is prevalent, not less, than it was last fall. That is not the fault of the Government, since no government could have prevented the development. It is not very good ground for the Minister to indicate that he claims that the problem has been solved.

As for the restriction policy, that has done nothing, and can do nothing, to make employment more plentiful. It has prevented the unemployed from being swelled by an influx from abroad, which is altogether to the good, but has done nothing more than that.

Perhaps it will be as well if the Minister gets together with the day doers more talking in public on the subject. What either of them says is not very encouraging, but at least they might say the same thing.

As for the restriction policy, that has done nothing, and can do nothing, to make employment more plentiful. It has prevented the unemployed from being swelled by an influx from abroad, which is altogether to the good, but has done nothing more than that.

Perhaps it will be as well if the Minister gets together with the day doers more talking in public on the subject. What either of them says is not very encouraging, but at least they might say the same thing.

## 40 Years Ago Today

From the files of The Edmonton Bulletin

Telephone—  
Robert Watson has been declared elected for Marquette, Minn.

1000 Chinese on the Camero Islands on the west coast of Africa 300 people were massacred.

Attorney General Martin was re-elected in Portage la Prairie, Man.

The C.P.R. has secured running rights over the Northern Pacific.

The Canadian government will ask the Imperial authorities to prevent Newfoundland discriminating in the sale of Newfoundland salmon by framing of regulations for the sale of bait.

The Governor General has received a telegram from Hon. H. Martin, Canadian senator, asking for the disallowance of the act passed by the Newfoundland legislature repealing salaries of those in that province.

Barl Gribble is dead.

General Hartigan will visit the Pacific coast this month.

John Booth, the tragedian, announces his farewell appearance on the stage on Saturday.

The Italian minister has received from Washington an account of the New Orleans outage.

—*Journalistic Weekly News.*

## THIRY YEARS AGO

John Ross has been appointed commissioner of the Yukon. Mr. Ross might well write a history of the Yukon, for he has been in the Yukon 30 years and saw it as well as a great European.

The Governor General has received a telegram from Hon. H. Martin, Canadian senator, asking for the disallowance of the act passed by the Newfoundland legislature repealing salaries of those in that province.

Barl Gribble is dead.

General Hartigan will visit the Pacific coast this month.

John Booth, the tragedian, announces his farewell appearance on the stage on Saturday.

The Italian minister has received from Washington an account of the New Orleans outage.

—*Journalistic Weekly News.*

## TWENTY YEARS AGO

Figures being brought down at an exhibition in the city for the solution of the present problem, by the advance agent of Bob St. Henn.

—*Journalistic Weekly News.*

The commissioners have recommended an increase in the amount of 10 per cent for the purpose of wiped out in all of 1 cent.

It is a special summer rate on coal being urged as a means of making Alberta coal competitive in Buda, Peña. Honey has forbidden the playing of jazz music in public places.

## The Master

By EDGAR A. GUEST

They seldom show him with a smile.

Always His face is sad to see.

Not be merry for a while.

The jolly humor that could

make him happy to see

And say "Let children come to me!"

They have never pictured that!

They who love a little child.

And who are fond of a little man.

Though troubled often. Now and then when I look at him I smile.

1 fancy I could see

With His thin chuckling, soft and sweet.

Telling stories to see

Some curious thing He's seen or heard.

He must have had a twinkling eye.

Which danced at times with gentle mirth.

So gayly on the cross to die.

## AFTER THE EARTHQUAKE

Here are very many people innocent; their assets have almost entirely vanished; they are in debt, and are in a condition of extreme financial emergency.

To assist their property losses

and to decide what measure of help is to be accorded them, the Canadian government has convened a special committee of experts to advise the government.

It will be easy to understand the attitude of each exporting country on the subject of wheat acreage control; for that

is a special aspect of the problem.

It is a special aspect of the problem.

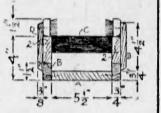

# FOR THE YOUNG PEOPLE

**The HANDY BOY AT HOME**  
BY CHARLES A. KING,  
STATE NORMAL SCHOOL, PLYMOUTH, N.H.

## FOOT SCRAPER

### FOOT SCRAPER

THIS is the time of year when mother's patience is a mighty trial. She has to bring into the house and onto her clean floors by her careless men folk. At such times there is little opportunity for the "Handy Boy" of her household to cover himself with glory. But there is still some tolerance for the dirt he sometimes makes on the floor in making the house. A simple wooden foot scraper can be made of any easily worked wood and with the simplest tools. When finished it

may be placed on the steps or porch where most needed and carried out of the house when the family's needs have passed.

Get out the base A  $3\frac{1}{2}'' \times 6\frac{1}{2}'' \times 2\frac{1}{2}''$  and cut the front B  $3\frac{1}{2}'' \times 9'' \times 9''$  should seat neatly against the base. The two sides C  $2\frac{1}{2}'' \times 9'' \times 9''$  should be cut to receive the base. In using this foot scraper, the base should be placed on the floor, allowing the end of it to project  $2\frac{1}{2}''$ . Secure a pair of pliers and a pair of  $1\frac{1}{2}''$  or  $2\frac{1}{2}''$  screws, allowing the end of the base to receive B. Make two holes at 2 to receive C. Make two holes at 3 to receive D. Glue D  $4\frac{1}{2}'' \times 3'' \times 4\frac{1}{2}''$  and fasten

with 3" screws as shown. Two bushes about  $16'' \times 5''$  and the pine and Ten" and seven drives through the base into the back of each bush as indicated.

In using this foot scraper, it is held upright and the feet are scraped with 1" or 2" bushes. The bushes will not sink into the mud when the mud is being scraped and brushed from the shoes of the other foot.

With 3" screws as shown, two bushes about  $16'' \times 5''$  and the pine and Ten" and seven drives through the base into the back of each bush as indicated.

## EASTER TIME

THE earth seems glad, the sky  
For Spring is surely on the way,  
Returning birds together chime:  
"Rejoice! it is Easter Time!"

Oh, Easter Time when sun shines bright  
And warms us with a cheery light,  
When trees bud and grass grows green  
And blooms on every side are seen.

Oh, Easter Time when from the mould  
The Lily bids good-bye to cold,  
And awakening brooks shake off the snow  
On the banks the jocund gnomes grow.

Oh, Easter Time your name brings joy  
This season to each girl and boy,  
For though we've loved the Winter's fun  
We're glad the Spring days have begun!

## THE JUNIOR COOK

### SANDWICHES FOR EASTER PARTY

With a very sharp knife cut  $\frac{1}{8}$  loaf of bread (that is more than a day old) into thin slices.

With a sharp knife, cut each slice in half, cut each slice into the shape of a rabbit.

On each slice of the rabbits two hard-boiled eggs and two tablespoons of boiled salad dressing.

Spread the paste on the rabbit shapes and put in two tiny candies for eyes.

With these sandwiches made of plain bread and butter cut in triangles and sandwiches of white bread, ham, lettuce, dressing and the whites of the hard-boiled eggs chopped fine. Cut them into triangles.

The rabbit sandwiches, being uncovered sandwiches, are very easily arranged this with plain sandwiches.

Serve at once with hot coocoas and egg-shaped candies.

## Puzzle Corner

### JUNIOR CROSS-WORD PUZZLE

**HORIZONTAL**      **VERTICAL**

### A SENIOR DOUBLE ACROSTIC

1-To necessitate,  
2-Graduates,  
3-A corn  
4-An island in the Pacific Ocean,  
5-To develop,  
6-English  
7-Primals and finals being mes-  
sages of cheer, summer is coming  
and springtime is here.

### HIDDEN THINGS WE THINK ABOUT AT EASTER TIME

After Eids, big Easter for your  
sister.

I saw him walk, bite the bone  
and then throw it away.

Please, Bob, ask Kits to help you  
with your lessons.

Come and see the chick enjoy  
the sun.

I never saw such urchins in this  
city as there are in Naples.

They are the ones that grass,  
ring and wait for the mud.

There is a very old in the Bible  
which contains all the letters of  
the English alphabet. The letters  
long ago J and J were considered  
to be the same letter. Look up the  
verse in the New Testament in  
Ecclesi VII, 21. Even the letters  
X and Z are there and all the rest.

### ENIGMA

1-am composed of twelve letters,  
My 6-11-6-1 is a mark or av-  
erage.

My 3-2-3-10-12 is what the  
beach is.

My 8-7-8 is a purpose,  
My whole is a Holy day.

## Juggling With The Alphabet

THIS boy and girl who is reading this page know the letters of the alphabet, but there is something else they are interested in about the letters which you probably know. Mrs. Müller, who made a great study of the alphabets of all lands tells us that there are now more than 1,000 foreign countries have 24 and more than 26 letters in their alphabets. There are 26 letters in English, 26 in Spanish, 27 in Italian, 26 in German, 26 in French, 26 in Greek, 26 in Turkish, 24 in Sanskrit, 44 and Chinese, and aren't you glad you don't have to learn all those letters?

There is a very old in the Bible which contains all the letters of the English alphabet. The letters long ago J and J were considered to be the same letter. Look up the verse in the New Testament in Ecclesi VII, 21. Even the letters X and Z are there and all the rest.

And the end of every end,

And the end of every place,

gives them that would seem like a real party to the poor children. Then she remembered the eggs she had given to the poor kiddies as anything that she could get. So she got out the eggs and the bright, brightly colored berries and she boiled the eggs with them, so that the children could eat them. The children just like the flowers that col-  
ored the earth in the spring time. The children were very happy and the eggs in the village church were over. Lady Rosalinda called all the children to her home for dinner. On the way to the little home she told them the story of the first Easter.

Now over they went back into the woods and there in each child's nest lay five eggs.

Great was the children's surprise and joy. They wondered what the eggs were.

The end of time and space;

The beginning of every end,

And the end of every place,

and there read the card and ad-

vised them to the poor children.

Then the children took the eggs

and the berries and the

berries were curious, but they did

what they were told with pleasure.

They then had a happy treat for the children in the village church. When the children had eaten the eggs they proved such a happy treat for the children that when their mother suggested that maybe a rabbit had placed them there, and all began to search for the rabbit, they found him just like the flowers that col-  
ored the earth in the spring time.

When the children had eaten the eggs they proved such a happy treat for the children that when their mother

suggested that maybe a rabbit had placed them there, and all began to search for the rabbit, they found him just like the flowers that col-  
ored the earth in the spring time.

When the children had eaten the eggs they proved such a happy treat for the children that when their mother

suggested that maybe a rabbit had placed them there, and all began to search for the rabbit, they found him just like the flowers that col-  
ored the earth in the spring time.

When the children had eaten the eggs they proved such a happy treat for the children that when their mother

suggested that maybe a rabbit had placed them there, and all began to search for the rabbit, they found him just like the flowers that col-  
ored the earth in the spring time.
